Homosexuality is an ever-increasing issue within American society. Those with a homosexual family member struggle between acceptance and rejection. In recent years, several mainline denominations have abandoned traditional interpretations of Scripture and have embraced the Gay-Christian movement. Are people born gay, or is it a choice? Can homosexuality be changed? Questions abound, and many Christians are confused as to what they should believe or how to respond. What does the Bible really say about homosexuality, and what is the responsibility of believers in dealing with this volatile issue? This resource list offers information on support groups and other resources for those who desire to leave homosexuality, as well as for friends, parents and siblings of homosexuals.
