Eugene’s Sudoku
Test your logic skills against Adventures in Odyssey’s resident genius, Eugene Meltsner, by solving these puzzles. Fill in the grid so each row, column and colored shape includes every number from 1 to 5. (That means no repeats, either horizontally or vertically.) Then solve the bigger puzzle so that each row, column and three-by-three box contains every digit from 1 to 9. Have fun!
GOOD SPORT
Search this puzzle for 13 sports. (We found the first one for you.) Words may turn up, down, left or right—but never diagonally. Each letter is used exactly once. Hint: Start with skating, lacrosse and wrestling. You’ll have to figure out the rest by yourself.

Corner Kick
Which soccer ball scores a gooooooooollllll??

Ticket to Trouble
Bad friends often lead you into trouble. Look at the carnival rides or games. Each one contains a letter that is missing from the word next to it. Find the missing letter, then fill in the blanks to reveal some great advice from the Bible.

"Don't 1 2 3 4 5 6 7 8 on the of the 9 10 11 12 13 ... 7 14 5 10 13 it; don't 3 15 7 14 2 16 on it. Turn away."

—Proverbs 4:14-15
