Listening Well	A	B	C	D
Dad isn't distracted by his phone when we talk				
Dad remembers what we talked about				
Dad asks me how my day was at school				
Dad values my opinion				

**A word from Jim Daly, President of Focus on the Family:**

Nobody's perfect! We all have blind spots. If this Dad's Report Card is used in the right spirit and the right way, it can be tremendously practical to get a sense of what's working, what's not, and how to forge a deeper connection in the days ahead. After having your child assign grades, carve out time over a meal at a favorite restaurant to discuss how Dad can adjust and improve his scores. For additional help, feel free to call 1-800-A-FAMILY. We're in this together!
