

Kids

usually don't recognize the long-term benefits of education. But positive reinforcement is still a great way to keep kids on task. Use this handy chart to encourage your child to complete his homework and earn daily progress toward a prize that you've agreed upon. If your child has no homework for a certain day, have him practice math facts, read for half

an hour or work on upcoming projects during the time slot you've set aside for schoolwork. Decide together on what amount of work should be done for each step, and emphasize that the schoolwork must be completed with a positive attitude. Use the blank lines to type in the goals for each day.

Post the chart on your fridge, and track progress with a magnet or marker.
